TREE PEONIES

"The KING of FLOWERS"

USUALLY \$10.00 to \$15.00 EACH and SCARCE AT ANY PRICE.
WHILE THEY LAST! EACH \$3.75, 2 for \$6.95, POSTPAID.

TREE PEONIES are a low, many branched shrub, growing 3 to 4 feet high, bearing giant size flowers in many shades of red, pink, purple, white and bi-color. They have been grown in China for a thousand years, first in the gardens of the Ming Emperors, where they gained the name "THE IMPERIAL FLOWER OF CHINA." The Chinese also call them "THE KING OF FLOWERS" because of their rare beauty and king-size blossoms. The flowers often measure 10 to 12 inches across, and have the texture of fine crepe silk. They are fragrant. They are hardy-long-lived-disease resistant. Grow well in any climate. Have been known to withstand 40 degrees below zero temperature. Need very little care. The sparkle and beauty of TREE PEONIES in full bloom are beyond description, and are even more spectacular and beautiful than the finest hybrid Rhododendron.

Colors offered: Red, Pink, Purple and White. Please give us, first, second and third choice in colors.

Prunus Triloba

Judas Tree, Red Bud

ASH, European Mountain. (*Sorbus Aucuparia*). A hardy, medium size tree; head dense and regular. Covered from July until winter with large clusters of bright red berries. Price: 3-4 ft. trees, \$1.85 each; 2 for \$3.40. 4-5 ft. trees, \$2.45 each; 2 for \$4.50.

RED AMYGDALUS. (*Persica Double-Flowering Peach*). One of the most beautiful ornamental trees. At its blooming time in May, every twig and branch is completely covered with beautifully formed double flowers, followed by green, glossy foliage. In fact, so attractive your neighbors will not rest until they inquire as to what it is. Is a rapid grower, attaining a height of 15 ft. at maturity. Price: 2-Yr., 3-4 ft. \$1.65 each; 2 for \$3.00.

CORNUS FLORIDA RUBRA. (*Pink Flowering Dogwood*). Trees are literally covered with large bloom before leaves appear—a vision of loveliness against new green lawns. Foliage turns to rich bronze-red in the fall. Attains a height of 15 to 18 ft. at maturity. Price: 3-4 ft. trees, \$3.95 each; 2 for \$7.50. These trees balled in peat.

CRAB, RED SILVER. In our opinion, the most colorful Flowering Crab ever introduced! Completely red in flower, leaf bark and fruit—rich maroon-red from top to bottom. Most flowering Crabs are preferred due to the mass of blooms which they produce for a short time, but the Red Silver is beautiful from spring until late fall because of its all-over red color. The leaves are somewhat cut-leaf, the under side of which are somewhat tinselled with silver—the blend of maroon and silver is a unique combination throughout the season. The wonderfully fragrant red flowers are large, partially double and altogether lovely. Delightful red fruits in the fall. Price: 2-Yr., 3-4 ft. trees, \$2.50 each; 2 for \$4.50.

"THUNDER CLOUD" (The Purple-Leaf Plum). This dwarf tree comes out red in the spring, stays red all summer and bronze-red in the fall. Beautiful, single-pink flowers in May. Hardy. Price: 2-Yr., 2½ to 3½-ft. trees, \$1.75 each; 2 for \$3.25.

PRUNUS TRILOBA. (*The Rose Tree of China.*) The double flowering Plum. The flowers on this small-growing tree are like the Flowering Almond, double, rose-like, and hugging the naked branchlets so closely and so profusely it is impossible to see the branches; blooms are a bright shade of pink. Hardy and seldom grows taller than 8 ft. Price: 2-Yr., 3-4 ft. trees, \$2.55 each; 2 for \$4.50.

JUDAS TREE. (*Red Bud.* *Cercis Canadensis*). Beautiful bright pink blossoms in early spring before leaves appear. Medium size tree with large irregular head and heart-shaped leaves.

Hardy. Price: 2-Yr., 2-3 ft. trees, 95c each; 3 for \$2.75.

↘ **ELBERTA.** Standard market peach of the entire country. Very large; yellow with red blush; flesh is yellow, tender, and juicy; very highly flavored. Rank, vigorous grower. Ripens middle of September. Freestone and self-fertile.

↘ **FAIRHAVEN — The Wonder Peach. Early Ripening — Heavy Producer — Hardy.** At least half of the fruits of Golden Jubilee will have been picked when Fairhaven begins. Fruit is medium-large, nearly round, bright golden in color, with a bright, red cheek. Skin smooth and tough. It resists browning, which is a great advantage, especially in processing. The stone is free when fully ripe. Heavy producer.

↘ **GOLDEN JUBILEE.** Tree habits and fruit resemble Elberta but ripens about a month earlier. The skin is yellow with red blush; flesh golden yellow, juicy, tender, sweet and a freestone. Very hardy.

↘ **HALE-HAVEN.** A cross between South Haven and J. H. Hale. Freestone. Strong grower, very hardy, heavy bearer; excellent flavor. Ripens 15 days earlier than Elberta. An excellent yellow freestone.

↘ **RED GOLD GIANT. The Improved Hale!** Truly the Giant of the peach family — many peaches weighing 1 pound each. A bud sport of the common Hale, but is larger and bears heavier. Fruit is round; skin is golden yellow, heavily blushed with red; flesh is yellow, firm, solid and delicious. Small pit.

↘ **RED HAVEN.** An excellent early maturing peach. RIPENS 30 DAYS EARLIER THAN ELBERTA. Yellow freestone, almost completely covered with a brilliant red color; sweet in flavor. Firm flesh and tough skin. Heavy producer.

Hale and Elberta varieties. Is a freestone peach, ripening with Elberta, and has a beautiful red color. The fruit is round and yellow-fleshed with little or no red near the pit, and develops good size even with a heavy load. Delicious flavor, making it ideal for dessert or canning purposes. Excellent shipping qualities. Is self-pollenizing. Redskin is winter-hardy in bud and cold-resistant in blossom.

Bears Young **MONTMAMMOTH** Easy To Pick

This variety was found by Lee McClain, of Knox County, in 1928. A sport of the Montmorency. Bears second year — no waiting for fruit. High quality cherries are large, often caliper an inch in diameter. As the tree is dwarf and spreading in growth, it is much easier to pick than other varieties, as the bulk of the crop can be harvested from the ground. Heavy producer — 3 to 5 fruits per spur. Records show the parent tree produced 6-gallon crate of fruit the third year.

Royal Red Leaf Peach

An ornamental tree with RED FOLIAGE — bright red early in the spring, gradually dulling to a deep maroon towards fall. Its deep rose blossoms against the red foliage create a most pleasing contrast. Produces full crops of perfectly round, inch and a half diameter peaches — just right for pickling. Fruit has all over red coloring; flesh is white with a delicious sweet flavor. Ripens late, with the Gold Drop. Our strain is far redder than foliage on most trees offered by other growers and therefore have named ours "Royal" — this assures you of the genuine red strain.

Giant Cultivated BLUEBERRIES

One of the biggest money-makers as a commercial proposition. We averaged 500 crates per acre this summer, making a net profit of \$2.00 per case. More profits per acre than any other small fruit if your ground is suitable.

An attractive ornamental from early spring until late fall. Heavy producer — four bushes in your yard will provide enough berries for Blueberry pie throughout the season.

As an ornamental shrub, the Blueberry cannot be surpassed; are full of pink buds, which open into bell-shaped, white flowers starting in June. Blueberries must have an acid or semi-acid soil, good drainage, and moderate supply of moisture; plant 5 x 7 feet apart.

We offer 3 named varieties in the three-year grade; thus: **Rancocas** (early to midseason); **Jersey** and **Rubel** (midseason to late). Specify the varieties wanted. We cannot guarantee varieties in 4-, 5-, and 8-year-old, but they will consist of all good kinds. The 4-, 5- and 8-year-old bushes will produce next summer. Remember, the older the bush, the more berries and profit you will receive. Cultural instructions on the planting of Blueberries included with every order.

TASTY FRESH BERRIES from JUNE UNTIL FROST! with these 2 Leading Everbearers

NEW 20TH CENTURY

Berries are round, of exceptionally large size from the first picking to the last. Fruit is uniform in size and has a rich red coloring all the way through; is very firm, which makes it excellent for distant shipping. FLAVOR of the best — we have never tasted a sweeter Ever-bearer — real honey-sweet! Also retains this delightful flavor when frozen. One of the best for freezing, jams and jellies.

HEAVY PRODUCER. Starts bearing 60 days after planting, when planted in the spring, and continues until frost stops them in the fall. Its yields are very heavy; records indicate this variety has produced 750 pints of berries from 500 plants, from July through November. **GROWS ON ANY SOIL.** Price: 25 for \$2.45; 50 for \$4.65; 100 for \$8.25; 250 for \$19.25; 500 for \$33.00. An excellent plant maker. A hundred plants in your garden will produce enough berries for an average family.

INSTRUCTIONS

Order Early. Just as quickly as possible after you receive our Fall book. Stock will be shipped at time specified, or proper planting time. Although it is an established fact that Fall is the best time to transplant stock in the Southern and Central States, it has proven to be a successful practice in the northern climates, as well. Of course, everybody plants bulbs in the Fall so they secure root growth and will have early bloom in the spring. There is also an advantage in the Fall planting of all kinds of shrubs, Evergreens, Trees, and Roses, as the soil usually is in excellent shape for transplanting and the early Fall rains give them a flying start. A wet spring or a dry spring may make it impossible for you to plant at that time.

WE CAN MAKE SHIPMENT OF Bulbs, Perennials, Evergreens about the middle of September; other stock, such as Shrubbery, Roses, Ornamental Trees, Fruit Trees, and Fruit Plants, about October 15th to 20th. Strawberry plants will be shipped separate from the balance of your order, about October 1st to 10th; Perennials and bulbs are also shipped separate, about September 20 to 25th. With the exception of Perennials, Bulbs, Evergreens and Strawberry plants and Garden roots, do not ask us to make shipment earlier than October 15th.

SEND MONEY by postal, express or bank money order, or registered letter. Unregistered currency sent at your own risk. Be sure to make all remittances to **THE ACKERMAN NURSERIES**.

TRANSPORTATION CHARGES. You are to pay shipping charges when shipment is received. On express shipments, you pay express company upon delivery. On parcel post shipments, you remit postage to us after shipment is completed, unless order was large and shipped c.o.d. for postage. We will bill you for postage by card the following month. **Postage** leaves our Post Office. House Plants, Perennials and Bulbs are prepaid — all other stock is quoted f.o.b. Bridgman.

We guarantee all of our nursery stock to be just as represented in our catalog; fully up to grade, of good quality, free from disease, and absolutely true to name; also to reach the customer in perfect growing condition. Furthermore, we will, at our option, either replace free of charge, or refund purchase price on any stock that arrives in bad condition; providing claim is made within 10 days after arrival. After 10 days it is mutually agreed that stock is satisfactory. Do not return plants unless so instructed by us. Continued growth depends upon soil, climatic conditions, planting and care — conditions we cannot control — hence is not guaranteed. All complaints on fall-shipped stock, must be registered not later than April 20th, following date of shipment. It is mutually agreed that in any event we will not be liable for more than the purchase price of the stock.
